

## **DROP-IN PICKLEBALL PADDLE ROTATION RULES**

Below are rotation rules for indoor play. All games will be doubles play. No indoor court reservations. Paddles are placed in line on the waiting table at the gym entrance to indicate order of play.

These rules are in place to ensure the most game play for all participants.

- 1.) Each game will rotate a full 4 players off the court. Games are played in doubles and both opponents will rotate off regardless of the game outcome.
- 2.) When there are more than four players waiting to play, each game will play to 8 points, instead of 11.
- 3.) Stack the paddles on the side table when you come off the courts. Feel free to mix up the foursomes, by moving your paddle to a different stack, as long as you don't remove someone from a stack or shift their paddle without their permission.
